

So, you've decided on an integrated membership CRM...

True Software as a Service (SaaS)

2-6 weeks implementation
under \$10k
never replace
reduced need for support
streamlined implementation
included and frequent enhancements
Enterprise hosting, backup and reliability

Legacy

6-12 months implementation
\$50-\$150k
replace every 4-5 years
high need for support
resource intensive implementation
cost per enhancement
basic backup and reliability

Are you finding the cost of website or CRM enhancements prohibitive?

True Software as a Service (SaaS) includes feature enhancements delivered weekly or monthly. Frequent enhancements ensure continuous improvements to workflows, communication, member engagement, security and reliability.

Are you frustrated with the support from your current provider?

Get the training and support your requirement from industry experienced professional that you can relate to. Receive guidance with industry best practices from years of practical experience, not just from software developers.
